Engineering company pledges \$10,000 to support community groups in Esperance

Following the success of the Community Support Program in Port Hedland and Newman, Bilfinger Berger Services (BBS) has made available \$10,000 to support not for profit groups making a positive contribution to the Esperance community.

Interested groups are invited to apply for funding to support their 2010 activities. Applicants will be required to address a series of selection criteria and provide background information on the activities of the group.

“Esperance has welcomed BBS into the community and we wanted to show our appreciation by offering financial support to organisations which work so hard for the region,” said Western Australia Operations Manager, Daryl Smith.

Bilfinger Berger Services, specialist engineering, construction and asset management contractor, has an extensive history in Western Australia and has been part of the Esperance community for two years, employing up to 50 staff and local subcontractors.

In addition to its operations in Esperance, Bilfinger Berger Services also has facilities in the Pilbara, Perth, and across Australia and New Zealand. The company employs around 3,500 people and provides services to the resources, transport, water, energy, utilities, industrial and process and social infrastructure sectors.

Submissions to the Bilfinger Berger Services Community Support Program must be lodged by email or received in the mail by close of business Friday 19 March 2010. For information about how to apply, visit the company’s website (www.bbsaa.com.au) or contact Lyn Shepherd via telephone: 08 9442 0210, or email: lyn.shepherd@bbsaa.com.au.

About Bilfinger Berger Services
